SIXTY-THIRD SESSION

1916

- May 1—Classes begin.
May 15—Last day for registration for Sixty-third Session.
Supplementary examinations begin.
May 24—Holiday (Victoria Day).
July 1—Holiday (Dominion Day).
Sept. 4—Holiday (Labor Day).
Oct. 30—Examinations begin.
Nov. 30—Sixty-third Session ends.
-

SIXTY-FOURTH SESSION.

1916

- Sept. 27—Classes begin. Supplementary examinations begin.
Oct. 16—University Day. Last day for registration.
Dec. 18—Christmas examinations.
Dec. 20—Christmas holidays begin. Classes close at 5 p.m. on Wednesday.

1917

- Jan. 3—Classes re-open at 9 a.m. Wednesday.
Feb. 21—Holiday (Ash Wednesday).
Apr. 3—Classes close at 5 p.m.
Apr. 4—Examinations begin.
Apr. 5—Holiday (Good Friday).
Apr. 25—Convocation for distributing prizes, announcing honours, and laureating graduates.

FACULTY OF MEDICINE.

D. M. GORDON, D.D., LL.D., C.M.G., Principal.

J. C. CONNELL, M.A., M.D., Dean.

A. R. B. WILLIAMSON, M.A., M.D., M.R.C.S., Eng., L.R.C.P., London,
Secretary.

Representatives on Senate.

DEAN CONNELL, DR. A. P. KNIGHT, DR. E. RYAN, DR. JAS.
THIRD.

Professors

W. G. ANGLIN, M.D., M.R.C.S., Eng., Professor of Clinical Surgery.

94 Earl Street.

J. W. CAMPBELL, B.A., M.D., C.M., Professor of Therapeutics, Associate Professor of Medicine.

150 Clergy Street.

A. L. CLARK, M.A., Ph.D., Professor of Physics.

200 Albert Street.

J. C. CONNELL, M.A., M.D., Professor of Ophthalmology, Otolaryngology and Rhinology.

265 King Street.

W. T. CONNELL, M.D., M.R.C.S., Eng., L.R.C.P., London, Professor of Pathology, Bacteriology and Sanitary Science.

11 Arch Street

R. W. GARRETT, M.A., M.D., Professor of Obstetrics and Gynaecology.

52 Johnson Street.

W. L. GOODWIN, D.Sc., Edin., Professor of Chemistry and Applied Chemistry.

Alice Street.

G. E. KIDD, B.A., M.D., C.M., Professor of Anatomy, Lecturer in Animal Morphology.

A. P. KNIGHT, M.A., M.D., F.R.S.C., Professor of Biology, Physiology and Histology.

Alice Street.

C. A. MORRISON, M.D., Associate Professor of Applied Anatomy, Assistant Professor of Surgery.

208 Bagot Street.

D. E. MUNDELL, B.A., M.D., Professor of the Principles and Practice of Surgery.

228 Brock Street.

G. W. MYLKS, M.D., Professor of Pediatrics and Gynaecology.

79 William Street.

W. T. MACCLEMENT, M.A., D.Sc., Professor of Botany.

University Grounds.

A. E. ROSS, B.A., M.D., C.M.G., Professor of Materia Medica and Jurisprudence.

166 Sydenham Street.

EDW. RYAN, B.A., M.D., Professor of Applied Anatomy, Associate Professor of Clinical Surgery and Clinical Medicine.

Rockwood Hospital, Portsmouth.

JAS. THIRD, M.D., Tor., M.D., C.M., Trinity, Professor of Medicine and Clinical Medicine.

12 Wellington Street.

A. R. B. WILLIAMSON, M.A., M.D., M.R.C.S., Eng., L.R.C.P., London, Professor of Obstetrics, Medical Jurisprudence and Toxicology.

240 King Street.

E. H. YOUNG, M.B., Toronto, Professor of Mental Diseases, Clinical Assistant in Medicine.

Rockwood Hospital, Portsmouth.

Assistant Professors.

FREDERICK ETHERINGTON, M.D., L.R.C.P. & S., Edin., Assistant Professor of Surgery.

WM. GIBSON, M.D., Assistant Professor of Pathology and Bacteriology, Clinical Assistant in Medicine, Lecturer in Clinical Microscopy.

85 William Street.

- A. P. LOTHROP, M.A., Ph.D., Assistant Professor of Biological Chemistry.
149 Union St. West.
T. L. PATTERSON, M.A., M.Sc., Assistant Professor of Physiology.
24 Frontenac Street.
G. B. REED, B.Sc., Ph.D., Assistant Professor of Botany.
150 Frontenac Street.
J. K. ROBERTSON, M.A., Assistant Professor of Physics. 105 Albert St.
J. F. SPARKS, B.A., M.D., C.M., Assistant Professor of Anatomy.
100 Wellington Street.

Lecturers.

- S. M. ASSELSTINE, M.D., C.M., Douglas Lecturer in Pharmacology and Therapeutics.
A. F. G. CADENHEAD, B.A., Lecturer in Chemistry.
495 Princess Street.
J. M. FARRELL, B.A., Police Magistrate, City of Kingston, Lecturer in Medical Jurisprudence and Toxicology. 36 Barrie Street.
J. O. HALVERSON, B.Sc., M.A., Ph.D., Lecturer in Biological Chemistry.
Ellerbeck Street.
S. J. KEYES, M.D., C.M., Lecturer in Anæsthetics, Demonstrator of Anatomy. Queen Street.
A. B. KLUGH, M.A., Lecturer in Biology, Physiology and Histology.
160 King Street
THOS. LITTLE, M.B., Lecturer in Histology, Demonstrator of Clinical Microscopy. 95 Clergy St. West.
E. C. D. MACCALLUM, M.D., C.M., McGill, Lecturer in Medicine.
300 Barrie Street.
V. E. POUND, M.A., Ph.D., Lecturer in Physics. 125 Centre Street.
E. T. STERNE, B.Sc., Lecturer in Chemistry. 236 Barrie Street.

Clinical Assistants.

- D. E. BELL, M.D., C.M., Clinical Assistant in Medicine and Demonstrator of Anatomy. 138 Wellington Street.
H. A. BOYCE, M.D., C.M., Clin. Asst. and Radiographer.
93 Wellington Street.
H. E. DAY, M.D., C.M., Clinical Assistant in Medicine and Demonstrator of Anatomy. 271 Alfred Street.
R. J. GARDINER, M.D., C.M., Clinical Assistant in Surgery.
180 Bagot Street.
ROBT. HANLEY, M.D., Clinical Assistant in Surgery. 109 Wellington St.
S. M. POLSON, M.A., M.D., Clinical Asst. of Eye, Ear, Nose and Throat, Demonstrator of Anatomy.
J. P. QUIGLEY, M.A., M.D., M.R.C.S., Eng., L.R.C.P., Lond., Clinical Asst. in Medicine, Demonstrator of Anatomy. 142 Wellington St.
W. K. ROSS, M.D., C.M., Clinical Assistant in Medicine.
Rockwood Hospital, Portsmouth.
J. G. WRIGHT, M.D., C.M., Clinical Assistant in Medicine.
Rockwood Hospital, Portsmouth.

Demonstrator.

- C. L. FREAR, B.S., Demonstrator of Chemistry.
240 Alfred Street.

Fellows.

- K. A. DENHOLM, B.A., M.D., C.M., Fellow in Pathology.
D. C. MATHESON, M.B., Fellow in Anatomy.
MISS JESSIE GORDON, Librarian and Assistant Secretary.

TIME TABLE FOR FIRST YEAR

| Hours | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
|---------|-------------------|--------------------|-------------------|--------------------|-------------------|--------------|
| 9-10.. | An.Bi.A., Phys.B. | Chemistry lect. | Physics lect. | Botany, lect. | Chem. lab. all | Anatomy, all |
| 10-11.. | An.Bi.A., Phys.B. | Hist. B., Phys. A. | An.Bi.B., Anat.A. | Anat. B., Phys. A. | Chem. lab. all | Anatomy, all |
| 11-12.. | Physics lect. | Hist. B., Phys. A. | An.Bi.B., Anat.A. | Anat. B., Phys. A. | Chem. lab. all | Anatomy, all |
| 1-2.. | Anatomy lect. | Hist. A., Phys. B. | Botany lect. | Anatomy lect. | An. Biology lect. | |
| 2-3.. | Chemistry lect. | Hist. A., Phys. B. | An. Biology lect. | Chem. lab. all | Anatomy, all | |
| 3-4.. | Anatomy, all | Anatomy, all | Chemistry lect. | Chem. lab. all | Anatomy, all | |
| 4-5.. | Anatomy, all | Anatomy, all | Anatomy, all | Chem. lab. all | Anatomy, all | |

TIME TABLE FOR SECOND YEAR

| Hours | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
|---------|------------|----------------------------|----------------------------|-----------------------------|------------|----------------------------|
| 9-10.. | Chemistry | Materia Medica | Chemistry | Expt. Physiology 9-12 A. | Anatomy | Chemistry |
| 10-11.. | Histology | Anatomy | Histology lab. 10-12 B. | Chemistry lab. 9-12 B. | Physiology | Histology lab. 10-12 A. |
| 11-12.. | Physiology | Physiology | Chemistry lab. 10-12 A. | Chemistry lab. | Pharmacy | Chemistry lab. 10-12 B. |
| 1-2.. | Anatomy | Expt. Physiology 1-4 B. | Anatomy | Anatomy | Anatomy | |
| 2-3.. | Anatomy | | Anatomy | Anatomy | Anatomy | |
| 3-4.. | Anatomy | Chemistry lab. 1-4 A. | Anatomy | Anatomy | Anatomy | |
| 4-5.. | Anatomy | | Anatomy | Anatomy | Anatomy | |

TIME TABLE FOR THIRD YEAR

| Hours | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
|---------|-----------------|-----------------------|------------------|-----------------------|-----------------------|---------------|
| 9-10.. | Pathology | Pathology | Clin. Microscopy | Physiology | Prac. Pathol. 9-11 | Bacteriology |
| 10-11.. | Phys. Diagnosis | Bacteriology | Physiology | Phys. Diagnosis | | Anatomy |
| 11-12.. | Pharmacology | Physiology | Surgery | Pharmacology | Physiology | Minor Surgery |
| 1-2.. | Anatomy | Pharmacology 1-3 A | Anatomy | Pharmacology 1-3 B | Anatomy | |
| 2-3.. | Anatomy | Anatomy 1-3 B | Anatomy | Anatomy 1-3 A | Anatomy | |
| 3-4.. | Bacteriology | Anatomy, all | Anatomy | Anatomy, all | Clin. Microscopy | |
| 4-5.. | Bacteriology | Anatomy, all | Anatomy | Anatomy, all | Clin. Microscopy | |

TIME TABLE FOR FOURTH YEAR

| Hours | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
|---------|----------------|--|--|----------------|----------------|-----------------------|
| 9-10.. | Surgery | Eye, Ear, Nose and Throat History Taking | Eye, Ear, Nose and Throat App. Anatomy | Pathology | Surgery | |
| 10-11.. | Clin. Surgery | History Taking | App. Anatomy | Medicine | Clin. Surgery | Pathology 10-11.30 |
| 11-12.. | History Taking | Medicine | Gynaecology | History Taking | Clin. Medicine | |
| 1-2.. | Pediatrics | Gynaecology | Pathology | Obstetrics | Obstetrics | |
| 2-3.. | Medicine | Therapeutics | Medicine | | | |
| 3-4.. | App. Anatomy | | Surgery | Therapeutics | App. Anatomy | |

TIME TABLE FOR FIFTH YEAR

| Hours | Monday | Tuesday | Wednesday | Thursday | Friday |
|---------|------------------------------|----------------|----------------|------------------------------|------------------------|
| 9-10.. | Eye, Ear, Nose and Throat | | Pathology | Eye, Ear, Nose and Throat | |
| 10-11.. | Clin. Medicine | Clin. Medicine | Clin. Medicine | | Medicine |
| 11-12.. | Clin. Surgery | Clin. Surgery | Clin. Surgery | Clin. Surgery | Clin. Surgery |
| 1-2.. | Obstetrics | Obstetrics | | (Rockwood) | Oper. Surg. |
| 2-3.. | Pathology | San. Science | San. Science | Ment. Diseases | Therapeutics |
| 3-4.. | | Surgery | Clin. Surgery | Clinic | History of Medicine |
| 4-5.. | Jurisprudence | Jurisprudence | | Mowat Hosp. (4-5) | |

MEDICAL EXAMINATION TIME-TABLE.

1917.

Time-tables to be published.

SUPPLEMENTAL EXAMINATIONS.

1916.

Time-tables to be published.

General Statement.

In 1854 the first classes in Medicine were held in Queen's University at Kingston, and in 1855 the first class graduated. The Medical Faculty was originally a Faculty of the University, but a separation took place in 1866, and for some years the Medical School was conducted under the Charter of the Royal College of Physicians and Surgeons at Kingston. In 1892 the Faculty again became an integral part of the University system. In 1913 the finances of the School merged into those of the University. At the present time the Medical Faculty has the same relation to the Board of Trustees and Senate as the Arts Faculty. These changes have increased the efficiency and usefulness of the School, which has contributed its share to scientific medical education and has produced original scientific work.

Kingston has been known throughout Canada as a University centre for more than seventy years. As a place of residence it is not surpassed by any University city in the Dominion. Good board and lodging in respectable private houses can be had at prices ranging from \$4.00 per week upwards. Lists of boarding and lodging houses can be had from the Secretary of the Faculty.

The College occupies commodious premises in the group of University buildings and is close to the General Hospital. The Medical Building, erected in 1858, has been enlarged and improved. The upper floor is devoted to the study of Anatomy, and has two large dissecting rooms, a lecture room and rooms for private demonstrations. The anatomical museum is growing rapidly.

Instruction in Chemistry is given in the new Chemistry Building, and in Physics in the new Physics Building.

The new Medical Laboratories Building was erected at an expenditure of \$50,000, and has been equipped throughout. The classes in Physiology, Biology, Histology, Pathology, Bacteriology and Pharmacology are conducted herein. This makes a most valuable addition to the resources of the school and gives students all the most modern advantages in laboratory work. In these laboratories examinations of specimens for the Public Health Department are constantly carried on and also experimental work for the Dairy interests of Eastern Ontario. Rooms for research work have also been provided in this building.

The Kingston General Hospital is adjacent to the University buildings. It contains 230 beds, and in addition to the wards for Medical and Surgical cases there are various special departments to which students have access. The Nickle wing accommodates infectious diseases. The Doran building is

reserved for obstetric and gynæcology cases and contains an operating room specially arranged for this work. In the main building, the Fenwick operating room, built in amphitheatre style on modern plans, will seat 100 students, and affords every facility for observing surgical operations. There is also a private operating room in the main building. An addition, known as the Empire Wing, has just been completed at a cost exceeding \$50,000. This contains a large class room suitable for autopsies, pathological rooms, dispensary and accommodation for about forty private patients.. In the General Hospital about 2,500 patients are treated annually.

The Hotel Dieu Hospital was founded in 1840. The commodious structures now occupied were rebuilt in 1892. Two hundred patients can be accommodated. The operating room is thoroughly equipped with modern facilities. During the year patients to the number of about 1,800 are admitted.

Rockwood Hospital for the Insane is also open to students. It contains about 600 patients. The lectures in Mental Diseases are given in the Hospital, as well as many clinics, operations and post-mortems.

The Oliver Mowat Memorial Hospital for Tuberculosis has recently been opened. It has been thoroughly equipped in accordance with the latest methods of treatment of that disease. This affords ample means to the students for the study of the prevention and cure of tuberculosis.

The Medical library is in the main Medical building and is entirely separate from the general library of the University. It contains the most recent medical literature and is freely open for the use of students.

The Professor of Bacteriology is also a special Health Officer of the Provincial Board of Health, so that examinations of large numbers of pathological products are constantly being made in the laboratories.

The period of study required for the degree of Doctor of Medicine is five years of academic work.

Graduates in Arts, who have taken in their Arts course the subjects of Physics, Chemistry and Biology, including Physiology and Histology, will receive advanced standing with credit for the work done in Arts so far as it applies to the Medical course. The course in Medicine may thus be completed in four years instead of five. There is a special course in Arts in which the degrees of B.A. and M.D. may be obtained in seven years (page 13).

Certificates of attendance are recognized by the University of Cambridge and the Royal Colleges of Physicians and Surgeons of London and Edinburgh, so that those possessing the degree of M.D. from Queen's University are entitled to all the privileges in Great Britain that are accorded to the students and graduates of other Colonial Colleges and Universities.

Men alone are admitted.

The Sixty-third Session opens May 1st, 1916, and the last day of the Session is Nov. 30th, 1916.

The Sixty-fourth Session opens Sept. 27th, 1916, and terminates April 25th, 1917.

All announcements and regulations contained in this Calendar apply to the current sessions only.

All applications with reference to the course must be made to Dr. Williamson, Secretary of the Faculty.

Hospital Privileges.—The Governors of the Kingston General Hospital agree to give those students who take out Hospital tickets (cost, \$2) all the advantages of a private room, including room, board, attendance of nurses in training, and ordinary medicines, when requiring medical or surgical treatment, from October 1st to May 1st. These benefits are conditional on 250 students taking out tickets by November 1st.

ADMISSION OF STUDENTS.

Matriculation requirements must be completed before admission.

Candidates for a degree must pass the Junior Matriculation of the University or its equivalent unless they (1) possess a degree in Arts, not being an honorary degree, from any recognized University; (2) have passed the Matriculation examination prescribed by the Medical Council of any Province in Canada.

Candidates from the United States will be accepted on presentation of a certificate of registration as a fully matriculated medical student from any State Board of Medical Licensure.

At the time of registration students must present to the Secretary their matriculation or other certificates of preliminary education, and where exemptions are claimed certificates giving an exact statement of the exemptions to which they are entitled.

Candidates who matriculate in any University in the British Empire will be allowed to enter upon a course without further examination. Matriculation Examinations from Universities in other countries will be accepted *pro tanto*.

Teachers' examinations are accepted *pro tanto* in lieu of the Matriculation Examination, *i.e.*, in so far as the subjects correspond, as follows:—

| | |
|--------------------------|---|
| Ontario..... | Jr. Leaving, Entrance to Normal School. |
| Prince Edward Island.... | Second Class. |
| Nova Scotia..... | Grade XI. |
| New Brunswick..... | { Academy Grade III. University School AA. |
| Manitoba..... | Second Class. |
| Alberta..... | Grade VII. |
| Saskatchewan..... | Grade VII. |
| British Columbia..... | Intermediate. |
| Newfoundland..... | Intermediate (50% required). |

MATRICULATION EXAMINATIONS.

The matriculation examinations are conducted for the universities by the Education Department of Ontario.

Information as to conditions and subjects can be had on application to the Registrar of the University.

REGISTRATION.

Students entering the Faculty of Medicine are required to submit the certificates on which they claim standing before being permitted formal registration.

No student shall be allowed to register in the Faculty of Medicine after the sixteenth of October of any year.

Any student desirous of repeating any year more than once must obtain the permission of the Faculty.

A student who has attended the course of instruction in any year will be required to complete the examinations for that year before he will be permitted to register in the succeeding year.

CURRICULUM.

Undergraduates who are candidates for the degree of M.D., C.M., must complete a period of five years' study, which must comprise five sessions of eight months each.

Regular attendance on full courses of instruction is required in the following departments:—

SUBJECTS OF STUDY.

1st Year:—Physics, Animal Biology, Botany, Histology, Anatomy and Chemistry.

2nd Year:—Anatomy, Practical Anatomy, Materia Medica, Pharmacy, Chemistry, Physiology, Histology, and Embryology.

3rd Year:—Anatomy, Practical Anatomy, Pharmacology, Physiology, Bacteriology, Pathology, Physical Diagnosis, Minor Surgery.

4th Year:—Pathology, Surgery, Medicine, Obstetrics, Gynæcology, Pediatrics, Eye, Ear, Nose and Throat, Applied Anatomy, Therapeutics.

5th Year:—Surgery, Medicine (including Therapeutics), Obstetrics, Gynæcology (Clinical), Pathology (Applied), Eye, Ear, Nose and Throat, Sanitary Science, Medical Jurisprudence, Mental Diseases, History of Medicine, Life Insurance Examinations.

The above courses of study may have been pursued either wholly at Queen's, or partly at Queen's and partly at some other recognized medical school. In the latter case at least one full session must have been spent at this University.

Certificates of attendance on lectures are accepted from incorporated medical schools in the British Dominions and others recognized by British Universities and licensing bodies. Other certificates of attendance on lectures and examinations may be accepted at the discretion of the faculty.

Students in Arts having the study of Medicine in view may take the following course, and thus obtain their B.A. and M.D. degrees in seven years:—

A course leading to the Degrees of B.A. and M.D. in seven years.

| Year I. | Year II. |
|---|---|
| <div> <div>Junior Latin</div> <div>Junior Greek</div> <div>Junior French</div> <div>Junior German</div> <div>Junior English</div> <div>Junior Mathematics</div> </div> <div> <div>any three</div> </div> | <div> <div>Junior Philosophy</div> <div>Senior English</div> <div>Senior Latin</div> <div>Senior Greek</div> <div>Senior German</div> <div>Senior French</div> <div>Junior Physics</div> <div>Botany (pass Arts)</div> </div> <div> <div>any one</div> </div> |
| Year III. | Year IV. |
| <div> <div>Chemistry (1st year Medical)</div> <div>Animal Biology (1st year Medical)</div> <div>Anatomy (1st year Medical)</div> <div>Senior Philosophy</div> <div>Economics</div> <div>Politics</div> </div> <div> <div>any one</div> </div> | <div> <div>Organic and Physiological Chemistry (2nd year Medical)</div> <div>Physiology (2nd year Medical)</div> <div>Anatomy (2nd year Medical)</div> <div>Materia Medica and Pharmacy.</div> <div>Histology and Embryology.</div> </div> |

The classes named above qualify for the degree of B.A. For the degree of M.D. the candidate must take in addition the third, fourth and fifth years in the Medical School.

Arts classes are subject to the regulations in the Arts calendar and the classes in Medicine to the regulation of the Medical calendar.

Students taking this course are required to register for the first two years in Arts alone and to pay the class, laboratory and registration fees in Arts; in the third and fourth years to register in Arts and to pay the full fees in Medicine.

EXAMINATIONS AND GRADUATION.

Every candidate intending to appear at the final examination must, on or before the 1st day of April in the year in which he proposes to graduate, present to the Secretary a declaration under his own hand that he is twenty-one years of age, or that he will be so before the date of graduation, and a statement of his medical studies, with proper certificates.

Every student must on or before April 1st notify the Secretary of the examinations upon which he intends to write. For this purpose blank forms are supplied.

Students must attend a minimum of 80 per cent. of the lectures and laboratory exercises in the subjects for which they are registered to be admitted to the final examinations in those subjects.

A minimum of fifty per cent. in each subject is required to pass. Candidates who fail to pass in the majority of the subjects required at one annual examination must repeat their attendance at all the classes of the year before they will be allowed to present themselves again for examination.

Candidates who fail in a minority of the subjects required at one annual examination may present themselves at the supplemental examinations next ensuing, in the subjects in which they failed, and on passing at such examinations, shall be allowed their year. Failure at the supplemental examinations will necessitate the repetition of the whole work of the year.

A candidate will not be admitted to an examination unless he has paid all fees due from him.

EXAMINATIONS.

Examinations are required at the end of every session as follows:—

At the end of the first session:—

Anatomy (Human), Animal Biology, Morphology, Botany, Chemistry, Physics.

At the end of the second session:—

Anatomy, Physiology, Histology and Embryology, Materia Medica and Practical Pharmacy, Chemistry.

At the end of the third session:—

Anatomy, Physiology, Pharmacology, Bacteriology, Pathology, Physical Diagnosis, Minor Surgery.

At the end of the fourth session:—

Pathology, Surgery, Clinical Surgery, Medicine, Clinical Medicine, Obstetrics, Gynæcology, Pediatrics, Eye, Ear, Nose and Throat, Applied Anatomy, Therapeutics.

At the end of the fifth session:—

Clinical Surgery, Clinical Medicine, Obstetrics, Pathology, Eye, Ear, Nose and Throat, Sanitary Science, Medical Jurisprudence, Mental Diseases.

EQUIVALENT EXAMINATIONS.

The following courses and examinations in Arts will be accepted in Medicine:—

- | | |
|---|--|
| 1. Attendance on the preliminary honour course and examinations in first year Animal Biology and preliminary honours. | 1. Course and examination in first year Animal Biology. |
| 2. Attendance on the honour course and examination in second year Animal Biology, including Histology. | 2. Course and examination in second year Physiology and Histology. |
| 3. Course and examination in Junior Chemistry and Qualitative analysis. | 3. Course and examination in first year Chemistry. |
| 4. Course and examination in Junior Physics, in Arts or Science, Part II Physics, Senior Leaving. | 4. Course and examination in Physics. |
| 5. Course and examinations in Arts Botany. | 5. Course and examination in Medical Botany. |

Degree of Doctor of Science (D.Sc.)

The higher degree of D.Sc. is granted under the following conditions:—

- (1). A period of two years must elapse between graduation as M.D. and the completion of the course.
- (2). Original and independent research in some subject of importance to medical science must be undertaken.
- (3). The candidate must submit a thesis embodying the results of his research. The literary as well as the scientific quality of the thesis is to be taken into account in judging the candidate's fitness to proceed to the examination.

(4). The candidate must apply in writing to the Secretary at least two years before he proposes to present himself for final examination, and must submit the subject of his research for approval.

(5). The examinations will be upon subjects cognate to that of the thesis and will be assigned by the Faculty. They will include a reading knowledge of scientific French or German.

Course for Diploma of Public Health (D.P.H.).

A. For candidates who have taken the B.Sc., M.D. course.

Such candidates will be entitled to enter for examination for this Diploma on presenting certificates of having taken: (1). Three months in attendance and clinical instruction in a Hospital for Infectious diseases; (2). Three months in a Bacteriological Laboratory, devoted to bacteriological aspects of Public Health; (3). One week in practical testing of milk and milk products for chemical constitution and common adulterations; (4). Six months with a recognized Medical Officer of Health in the practical study of Sanitation.

B. For candidates proceeding to take this Diploma after graduation as M.D.

Such candidates will be entitled to enter for examination for this Diploma on presenting certificates of having taken:

(1). Three months' course in Sanitary Physics (Principles of Statics, Pneumatics, Hydraulics, Light, Photometry, Heat, Thermometry, Hygrometry).

(2). Three months' course in Sanitary Chemistry, especially devoted to quantitative and qualitative analysis of air, water, and common foodstuffs; this course must include one week's work in practical testing of milk and milk products for adulteration or sophistication.

(3). Three months' course in a Bacteriological Laboratory devoted to bacteriological aspects of Public Health work, such as examination of sputum, blood, swabs, water and milk, and the detection of common animal parasites.

(4). Three months' course in advanced Hygiene, covering especially a discussion of sewage and garbage disposal, water supplies, disinfection, transmissible diseases, vital statistics and sanitary legislation.

(5). Three months' course in Sanitary Engineering, including water services, sewerage systems, sewage and garbage disposal.

(6) Three months' attendance and clinical instruction in a Hospital for Infectious diseases.

(7). Six months with a recognized Medical Officer of Health in the study of practical sanitation.

FEES.

All fees must be paid before November 1st.

| | |
|---|---------|
| Matriculation Examination Fee | \$ 5 00 |
| Sessional Fee | 105 00 |
| Supplemental Examinations (each year) | 10 00 |
| Hospital Ticket—full course, payable with third year fees | 25 00 |
| Hospital Ticket—one session | 9 00 |
| <i>Ad eundem statum</i> | 10 00 |
| Graduation—M.D., C.M. | 30 00 |
| —D.Sc. | 50 00 |
| —D.P.H. | 20 00 |
| Exclusive use of Microscope, per session | 5 00 |
| Laboratory fee for Physics | 3 00 |
| Laboratory fee for Chemistry | 5 00 |
| Laboratory fee for Experimental Physiology | 3 00 |

Matriculation, Laboratory and Graduation fees are payable to the Registrar of the University; all other fees to the Secretary of the Faculty of Medicine.

The Sessional fee is the same for all registered students whether taking a partial course or more than the usual number of classes. Graduates in Arts and students in the combined course (B.A., M.B.) will pay the full sessional fee.

AVERAGE COST PER SESSION.

The average student pays for board from \$3.25 to \$3.75 a week, and for room from \$1.25 to \$2.00 a week. A few pay as little as \$4.00 for board and room, while others with more expensive tastes pay \$6.00 or more. Any one, however, may count on finding satisfactory board and lodging at from \$5.00 to \$5.25 a week.

| | |
|----------------------------------|----------------------|
| Board and lodging | \$120 00 to \$180 00 |
| Books and Stationery | 10 00 to 30 00 |
| *Incidentals | 12 00 to 20 00 |
| Class fees | 105 00 to 105 00 |
| Hospital fee (for 3 years) | 9 00 to 9 00 |
| <hr/> | |
| \$256 00 to \$344 00 | |

*By incidentals is meant subscriptions to students' societies, etc.

PRIZES.

Besides University prizes, scholarships, and honours open to medical students, the following are offered:

1. A Faculty Prize in Anatomy awarded to the student making the highest number of marks in Second Year Anatomy.

2. A prize of \$25.00 is awarded to the student making the highest number of marks on the second year examinations in Anatomy, Physiology, Histology, and Chemistry.

3. The New York Alumni Association Scholarship of \$50.00. Awarded to the student making the highest marks in the honour Physiology and Histology papers of the course. Open also to Arts students in honour Animal Biology.

4. A standard work on Medicine will be awarded to the student making the highest percentage of marks on the examination in Pharmacology of the third year.

5. The N. F. Dupuis Scholarship.—This scholarship has been founded by the graduates as a mark of their appreciation of the long and effective services of Dr. N. F. Dupuis. The scholarship is of the value of \$60, and is awarded to the student who makes the highest marks in the examinations in Chemistry of the second year.

6. The Dean Fowler Scholarship.—This Scholarship, of the value of \$50, is awarded to the student making the highest percentage of marks on the examinations of the third year, and will be enjoyed by the successful candidate during the fourth session.

7. A standard work on Pathology will be awarded for the best written and practical examination in Pathology.

8. A University Medal to the student making the highest number of marks in the examinations in Practice of Medicine, Clinical Medicine, Therapeutics, Pathology, Bacteriology, Sanitary Science, Jurisprudence and Mental Diseases.

9. A University Medal to the student making the highest number of marks in Surgery, Clinical Surgery, Obstetrics and Gynæcology, Medical and Surgical Anatomy and Eye, Ear, Nose and Throat.

10-12. Three House Surgeoncies at the Kingston General Hospital, of twelve months each, are awarded to three students of the fifth year.

Candidates for these positions must have passed all previous examinations. These appointments must be approved by the Board of Governors of the Kingston General Hospital. Applications for these appointments must be made to the Secretary of the Faculty not later than January 15th in each year.

13-14. Two House Surgeoncies at the Hotel Dieu, Kingston. Applications to be made to the Secretary of the Faculty not later than January 15th.

15-16. Two Clinical Assistants are appointed to the staff of the Rockwood Hospital for the Insane to work during the summer. Applications must be made to Dr. Ryan, Superintendent, by whom the appointments are determined, emphasis being laid on the special qualifications necessary for such work.

17, 18, 19. Three teaching Fellowships of the value of \$300 each, one in Anatomy, one in Pathology and Bacteriology, one in Physiology. These are open to members of the graduating class and will be awarded upon the general record of the applicants and, if necessary, a competitive examination. Applications for these must be made to the Secretary of the Faculty not later than January 15th in each year.

EXHIBITION OF 1851, SCIENCE RESEARCH SCHOLARSHIP.

20. This scholarship of the annual value of £50 stg., is awarded by His Majesty's Commissioners for the Exhibition of 1851 to students who have given evidence of capacity for original research, and (except in very special circumstances) are under 30 years of age.

The nominee must be a British subject, must have been a *bona-fide* student of this University for three years, must have been a student of this University for a full year immediately before his nomination, must be a student of this University at the time of his nomination (or he must have been a student at this University for a full year ending within twelve months prior to his nomination and since ceasing to be such student must have been engaged solely in scientific study), and must pledge himself not to hold any position of emolument whilst holding the scholarship. He is recommended to the Commissioners by the Senate of the University. The scholarship may be held for a second year, if the report of the first year's work be satisfactory to the Commissioners. The scholar will in the absence of special circumstances be required to proceed to an institution other than that by which he is nominated, and there pursue some investigation likely to promote technical industries or scientific culture. The particular investigation the student proposes to pursue must be stated before a scholarship can be awarded.

The next recommendation will be made by the Senate in April, 1917.

REQUIREMENTS FOR LICENSE.

A University Degree does not give the right to practice the profession of Medicine. It is also necessary to conform with the laws pertaining to the practice of Medicine in the province, state or country in which it is proposed to begin practice. The Medical Council of Canada issues a diploma which is accepted for registration in any province of the Dominion. Each province in Canada has a special standard of medical education and special requirements for license.

DOMINION OF CANADA.

The announcement of the Medical Council of Canada may be obtained from Dr. R. W. Powell, Registrar, Ottawa.

Students are advised to secure this qualification in preference to one from any provincial council.

PROVINCE OF ONTARIO.

The announcement of the College of Physicians and Surgeons of Ontario may be obtained from Dr. H. Wilberforce Aikens, Registrar, Toronto.

The matriculation examination is the examination conducted by the Education Department on the course prescribed for Junior Matriculation in Arts.

Graduates in Arts, and those who have passed Senior Arts Matriculation or the examination conducted at the end of the first year in Arts, are entitled to registration as matriculants.

Five years must be spent in actual professional studies. Four winter sessions of eight months each are required; the fifth or final year is devoted to clinical work.

Examinations are held at Toronto, Kingston and London.

One final examination is demanded at the end of the fifth year.

The fees are \$100.

The date of examinations will be found in the annual announcement.

PROVINCE OF QUEBEC.

Information as to qualifications for the practice of Medicine in the Province of Quebec can be had from Dr. Jos. Gauvreau, 55 St. Frs. Xavier, Montreal.

PROVINCE OF NOVA SCOTIA.

The regulations for candidates for the license of the Provincial Medical Board of Nova Scotia can be had from the Registrar in Halifax.

Examinations take place twice a year, beginning on the first Thursday in May and the last Thursday in August.

PROVINCE OF NEW BRUNSWICK.

The Registrar, Dr. Stewart Skinner, St. John, N.B., will furnish details on application.

To become registered as a practitioner in this Province it is now necessary to pass examinations in all professional subjects.

The professional examinations will be held in St. John once each year, commencing on the fourth Wednesday in June, and at other times when considered advisable.

PRINCE EDWARD ISLAND.

The requirements for this Province are the same as those of New Brunswick, and there is reciprocity with New Brunswick and Nova Scotia.

MANITOBA.

Dr. J. S. Gray, 358 Hargrave Street, Winnipeg, is the Registrar, and will, on request, send particulars. The fee for registration and license is \$75.00.

BRITISH COLUMBIA.

The Registrar is Dr. A. P. Proctor, Victoria, B.C., to whom applications should be made for particulars. Examinations are held in the professional subjects, primary and final. The fee is \$100, and examinations are held twice a year, the first Monday in May and the last Monday in October.

ALBERTA.

License to practise medicine in the Province of Alberta is issued by the College of Physicians and Surgeons of Alberta, whose Registrar is Dr. George Macdonald, of Calgary. The examinations, however, for qualification to apply for license are under the direction of the Senate of the University of Alberta, and enquiries concerning these should be addressed to Cecil E. Race, Registrar of the University of Alberta, Edmonton. Examinations are held in the spring and fall of each year. Applications for the spring examinations must be made on the official forms, and must be in the hands of the Registrar of the University on or before April 1st, and for the fall examination on or before August 15th, in each year.

SASKATCHEWAN.

Dr. Charlton, Regina, is Registrar for Saskatchewan.

GREAT BRITAIN AND IRELAND.

The General Council of Medical Education and Enregistration has general supervision over the various licensing and examining Boards and keeps

the Medical Registrar. Enrolment on the Register entitles one to register not only in Great Britain, but in most British Colonies (except Canada). The main licensing and examining bodies recognized in Great Britain apart from the universities are as follows:—

In England—The Conjoint Board of the Royal College of Surgeons of England and Royal College of Physicians of London. Information can be obtained from the Secretary, Examination Hall, Victoria Embankment, London, W.C.

In Ireland—The Conjoint Board of the Royal Colleges of Physicians and Surgeons of Ireland, of which Board the Secretary is Mr. Greenwood Pim, 6 Kildare Street, Dublin.

In Scotland—The Conjoint Board of the Royal Colleges of Physicians and Surgeons of Edinburgh and the Faculty of Physicians and Surgeons of Glasgow. Information can be obtained from Mr. George Robertson, 54 George's Square, Edinburgh, or from Mr. Alexander Duncan, 242 St. Vincent Street, Glasgow.

Certificates of Queen's University Medical Faculty are accepted by these Boards, so that those possessing the degree of M.D. from Queen's University are entitled to all the privileges in Great Britain that are accorded to students and graduates of other Colonial Colleges and Universities.

NEW YORK STATE.

All communications concerning license examinations should be addressed to "Examination Department," University of the State of New York, Albany, N.Y.

Examinations are held at New York, Albany, Syracuse and Buffalo, in the months of January, May and September.

NOTE.—The Journal of the American Medical Association publishes an Abstract of the Laws regulating the Practice of Medicine in the various States and Territories of the United States. The price is 30c, and it can be had by addressing the "American Medical Association," 103 Dearborn Street, Chicago, Ill.

COURSES AND METHODS OF INSTRUCTION.

ANATOMY.

A.

Descriptive Anatomy.

G. E. Kidd, B.A., M.D., C.M., Professor.

J. F. Sparks, B.A., M.D., C.M., Assistant Professor.

S. J. Keyes, M.D., C.M., Lecturer.

D. E. Bell, M.B., Demonstrator.

H. E. Day, M.D., C.M., Demonstrator.

S. M. Polson, M.A., M.D., C.M., Demonstrator.

J. P. Quigley, M.A., M.D., C.M., Demonstrator.

D. C. Matheson, M.B., Fellow.

Lectures are given by members of the staff, to the first year on Monday and Thursday at 1 o'clock, and to the second year on Tuesday at 10 o'clock and Friday at 9 o'clock.

FIRST YEAR.

- (a) A series of lectures on general anatomy, outlining the different tissues, systems, etc., of the body.
- (b) The study of the bones of upper and lower extremities. Special demonstrations are given to small sections of the class.
- (c) Complete dissection of upper and lower extremities, as outlined in Cunningham's "Manual of Practical Anatomy."
- (d) Review and demonstration in dissecting room, twice weekly.

SECOND YEAR.

- (a) The study of the bones of the head and trunk.
- (b) Complete dissection of head and neck, abdomen and thorax.
- (c) A series of twenty-four lectures on the development and structure of the central nervous system.
- (d) Demonstrations on the organs of special sense and viscera.
- (e) Review and demonstration in the dissecting room twice weekly.

Students must dissect the whole of the human body during the course. Preliminary and final oral examinations are required from each student, on each part dissected, and no certificate is given unless the examinations are satisfactory. Besides these, final written examinations are held at the close of the Spring term. Students must complete the dissection and pass all oral examinations before being allowed to proceed with the written examinations.

A complete set of bones of the extremities is loaned to each first year student. Bones of the head and trunk are loaned to second year students.

All lectures and demonstrations are illustrated by carefully dissected moist and dry preparations, frozen sections, plates, photographs and drawings.

Special demonstrations are given on the bones, brain, organs of special sense and viscera.

A Faculty prize in Anatomy is awarded to the student making the highest marks in Second Year Anatomy.

The dissecting rooms are open from 9 a.m. to 5 p.m., and during the hours for dissection the professors and demonstrators are in constant attendance guiding and assisting the work of the students. One entire flat of the Medical Building is devoted to anatomical purposes. The dissecting rooms are large, well lighted and thoroughly ventilated. An abundance of the best dissecting material, prepared in the most approved manner, is constantly on hand for the use of the students.

Arrangements can be made by graduates and others for the use of the dissecting room and for material for special study and research.

BOOKS OF REFERENCE.

Cunningham's Dissecting Manual; Cunningham's Textbook; Gray; Pier-sol; Villager's Brain and Spinal Cord; Fagge; Rawling's Surface Markings.

B.

Applied Anatomy.

Edward Ryan, B.A., M.D., Professor.

C. A. Morrison, M.D., C.M., Associate Professor.

The lectures are delivered to the fourth year in the Medical Building, on Monday at 3 o'clock, Wednesday at 10 o'clock, and Friday at 3 o'clock.

Special attention is directed to anatomical relations, ligatures of arteries, displacement in fractures and dislocations and to topographical anatomy.

Anatomy in its relation to medicine and surgery is thoroughly demonstrated.

BOOKS OF REFERENCE.

Mundell, Woolsey, Treves, Bellamy, Fuller.

ANIMAL BIOLOGY.

A. P. Knight, M.A., M.D., F.R.S.C., Professor.

A. B. Klugh, M.A., Lecturer in Morphology.

T. Little, M.B., Lecturer in Histology.

FIRST YEAR.

1.—*Animal Biology.* Students of the first year will attend a course of lectures and demonstrations in general animal biology, to be given twice a week for half the session. The course is an elementary one and is designed as an introduction to the subject.

Wednesday, 2 p.m., Friday, 1 p.m. first half year. Professor Knight.

2.—*Histology.* A course of microscopic demonstrations upon the tissues and organs of the mammal will be given three hours a week throughout the session. A large number of sections of both fresh and prepared tissues will be furnished to each student for examination under the microscope. These sections must be carefully studied, drawn and described in a blank book specially provided for the purpose.

Section A, Tuesday, 1-3. Section B, Tuesday, 10-12. Dr. Little.

A microscope can be rented for \$5 per session; or one can be purchased for \$48, payable at once or in yearly instalments of \$16.

Each student must provide himself with a set of histological slides. The slides may be obtained:

1. By purchase at the college; 1st year slides \$2.50, 2nd year slides \$5.00.
2. By rental at the college: 1st year slides \$1.25, 2nd year slides \$2.50.

A student renting slides must deposit full price of same and on the return of the slides fifty per cent. refund will be given to him, less 25 cents for each slide destroyed.

3. By purchase elsewhere of slides. These must be approved by the professor.

SECOND YEAR.

3.—*Advanced Histology.* This course will be completed January 31st of the second year, three hours per week being devoted to it. All students are taught how to prepare and mount microscopic specimens.

During February and March of the second year an introductory practical course of three hours a week is given in the embryology of the chick and the pig.

Section A, Wednesday 10-12, Section B, Saturday 10-12. Lecture,
Monday, 11. Dr. Little.

THIRD YEAR.

4. This course comprises a study of the microscopic animals found in water, the tapeworm and other parasitic worms, the mosquito, house-fly and other animals important from a medical standpoint. Mr. Klugh.

5. A course of lectures on heredity. Hours to be arranged.

Mr. Klugh.

Text-books:—Wells and Davies, A Text-book of Zoology (Course 1).
Hill, Manual of Histology (Course 2).

Jordan & Ferguson, A Text-book of Histology
(Course 3).

McFarland, Medical Biology (Course 4).

Walter, Genetics (Course 5).

BIOLOGICAL CHEMISTRY.

Alfred P. Lothrop, M.A., Ph.D., Assistant Professor.

John O. Halverson, M.A., Ph.D., Lecturer.

A. F. Grant Cadenhead, B.A., Lecturer in Chemistry.

E. T. Sterne, B.Sc., Lecturer in Chemistry.

Claude L. Frear, B.Sc., Demonstrator.

FIRST YEAR.

1. *General Chemistry.*

(a) A course of three lectures a week, on the fundamental laws and theories of general chemistry, including a description of the common elements and compounds and a discussion of elementary physical chemistry and the theory of qualitative analysis. The lectures are fully illustrated by class-room demonstrations.

(b) The lecture discussions are closely paralleled by laboratory practice, which includes exercises in qualitative analysis.

Lectures—Monday 2 p.m., Tuesday 9 a.m. and Wednesday 3 p.m.

Laboratory—Thursday 2-5 p.m. and Friday 9-12 a.m.

Dr. Lothrop and Messrs. Cadenhead, Sterne and Frear

Text-books:—McPherson and Henderson: A Course in General Chemistry, and Laboratory Manual of General Chemistry.

The examinations in general chemistry must be passed before the student will be admitted to the course in organic and physiological chemistry. The course in Junior Chemistry (Arts Calendar) will not be accepted as equivalent to the first year medical chemistry unless offered in conjunction with the elementary course in qualitative analysis.

SECOND YEAR.

2. *Organic and Physiological Chemistry.*

(a) In the lectures a study is made of the elementary principles of organic chemistry and its compounds which are essential as a foundation for physiological chemistry. Special emphasis is laid on the carbohydrates, lipins and proteins. This study is followed by a discussion of the chemical processes involved in respiration, secretion, digestion, absorption, metabolism and excretion, and the chemistry of the tissues.

(b) During the first half year the properties of the more important classes of organic compounds of both the aliphatic and benzene series are studied in detail in the laboratory. Special attention is directed to the carbohydrates and lipins.

In the second half year knowledge is gained of physiological chemistry by a study of the physical and chemical properties of proteins and enzymes and by laboratory experiments on foods, digestion, bile, secretions, blood, tissues and normal urine.

Lectures—Monday, Wednesday and Saturday, 9 a.m.

Laboratory—Section A, Tuesday, 1-4 p.m. and Wednesday, 10-12 a.m.; Section B, Thursday, 9-12 a.m. and Saturday, 10-12 a.m.

Drs. Lothrop and Halverson.

Text-books:—Moore: Outlines of Organic Chemistry. Hawk: Practical Physiological Chemistry. Lothrop: A Laboratory Course in Organic and Physiological Chemistry.

ELECTIVE COURSE.

3. A course designed for advanced students who desire to do special work in biochemistry. The laboratory work will include the preparation of typical biological products and a study of biochemical methods of analysis. Hours to be arranged.

Dr. Lothrop.

BOOKS OF REFERENCE.

Smith: General Chemistry for Colleges. Stieglitz: Qualitative Chemical Analysis, Part I. Holland: Medical Chemistry. Philip: Physical Chemistry: Its Bearing on Biology and Medicine. Norris:

Principles of Organic Chemistry. Cohen: Theoretical Organic Chemistry. Walker: Organic Chemistry for Students of Medicine. Plimmer: Practical Physiological Chemistry. Cole: Practical Physiological Chemistry. Hammarsten: A Text-book of Physiological Chemistry. Mathews: Physiological Chemistry. Lusk: The Science of Nutrition. Sherman: The Chemistry of Food and Nutrition. Halliburton: Chemical Physiology. Monographs on Biochemistry.

BOTANY.

W. T. MacClement, M.A., D.Sc., Professor.

Guilford B. Reed, B.Sc., Ph.D., Assistant Professor.

FIRST YEAR.

1. The gross anatomy and chief physiological processes of plants.
2. A brief outline of the morphology of the vegetable kingdom, beginning with Cyanophyceae and Bacteria, through Algae, Water Molds, Mildews, Rusts, Toadstools, Liverworts and Mosses, Ferns, Horsetails and Clubmosses to the Seed Plants.
3. The classification of the native plants important in medicine and toxicology.

Lectures—Wednesday 1 p.m. and Thursday 9 a.m. Professor Reed.

Textbook:—Bergen and Caldwell, Practical Botany.

THIRD YEAR.

The morphology and physiology of the Fungi and Bacteria, the general physiology of the cell, and enzyme reactions.

Professor Reed.

EYE, EAR, NOSE AND THROAT.

J. C. Connell, M.A., M.D., Professor.

S. M. Polson, M.A., M.D., Clinical Assistant.

Dr. Connell lectures to the fourth year at the General Hospital on *Tuesday and Wednesday mornings, at 9 o'clock.*

The course consists of lectures, clinics and demonstrations throughout the fourth and fifth years. Practical lessons in the use of the ophthalmoscope and laryngoscope are given to the classes in sections.

BOOKS OF REFERENCE.

Swanzy, Fuchs, Gleason, St. Clair, Thompson.

GYNAECOLOGY.

G. W. Mylks, M.D., C.M., Professor.

The lectures are delivered to the fourth year at the Medical Laboratories Building on Tuesday at 1 o'clock and Wednesday at 11 o'clock.

The course is taken in the fourth and fifth years and consists of lectures and clinical demonstrations. The clinics are held in the operating rooms and clinical lecture room at the General Hospital.

FOURTH YEAR.

The course includes methods of pelvic examination, the disorders of menstruation, diseases of the female generative organs, injuries to the pelvic floor, urinary bladder and rectum, malformations and displacements of the uterus, extra-uterine pregnancy and benign and malignant growths affecting the female genitalia.

At the Hospital, demonstrations are given in the technique, post-operative treatment and instruments used in gynaecologic cases, also in the application of pessaries and such local treatments as douches, tamponade, etc. The various pelvic and vaginal operations are performed before sections of the class.

FIFTH YEAR.

The work of the fifth year is taken up in the hospitals and is largely clinical and operative, including special methods of examination such as cystoscopy, etc. Special attention is given to the pathology of pelvic growths.

Textbooks:—Garrett, Herman, Eden, Ashton, Gilliam, Penrose, Kelly, Gardner, Polak.

MATERIA MEDICA, PHARMACY AND PHARMACOLOGY.

A. E. Ross, B.A., M.D., C.M.G., Professor.

J. F. Sparks, B.A., M.D., Assistant Professor.

S. M. Asselstine, M.D., C.M., Lecturer.

Dr. Sparks lectures to the second year at the Medical Building on Tuesday at 9 o'clock and Friday at 11 o'clock ;and to the third year on Monday and Thursday at 11 o'clock.

Dr. Asselstine lectures to the third year at the Medical Building on Tuesday and Thursday at 1 o'clock.

The course in the second year consists of preliminary lectures on the definitions, measures, pharmaceutic methods, and special pharmaceutical preparations. This is followed by a course of lectures on the classification, sources and preparation of drugs. The laboratory course consists of practical demonstrations of drugs with preparations and their solubilities and incompatibilities, special stress being laid on the more important and commonly used drugs.

In the lectures to the third year, special attention is paid to the pharmacological action of drugs. The course in experimental pharmacology consists in experiments performed by the students, under supervision of the lecturer.

Books recommended:—Sollman, Bruce and Dilling, Cushney, Meyer-Gottlieb, Bastedo and Lauder Brunton. Prescription writing by Eggleston.

MEDICAL JURISPRUDENCE.

A. E. Ross, B.A., M.D., C.M.G., Professor.

J. M. Farrell, B.A., Lecturer.

Mr. Farrell lectures to the fifth year at the Medical Building on Monday and Tuesday at 4 o'clock.

This class includes a course in Toxicology, in which the action of poisons, general evidence of poisoning and classification of poisons are discussed, and reference is made to symptoms, chemical tests and post-mortem appearances.

The course in Jurisprudence includes documentary and oral evidence, identification, real and apparent death, autopsies, the taking down of evidence; the appearance of wounds and other external injuries before and after death; effects of suffocation, drowning; the detection of blood stains, seminal fluids,

etc.; the evidence of rape, criminal abortion, concealment of pregnancy and infanticide; insanity, feigned diseases, impotence, sterility, legitimacy, life assurance and malpractice. The lectures are illustrated with plates and specimens.

BOOKS OF REFERENCE.

Poore, Reese, Herold, Taylor, Hamilton, Tidy, Witthaus & Becker, Peterson & Haines, Glaister, Draper, Cathell.

MEDICINE.

Jas. Third, M.D. Tor., Professor of Medicine and Clinical Medicine.
Edward Ryan, B.A., M.D., Associate Professor of Clinical Medicine.
J. W. Campbell, M.D., C.M., Associate Professor of Medicine and Clinical Medicine.
S. M. Asselstine, M.D., C.M., Lecturer in Therapeutics.
Wm. Gibson, M.D., C.M., Lecturer.
E. C. D. MacCallum, M.D., C.M., Lecturer.
D. E. Bell, M.D., C.M., Clinical Assistant.
H. A. Boyce, M.D., C.M., Clinical Assistant.
H. E. Day, M.D., C.M., Clinical Assistant.
J. P. Quigley, M.A., M.D., M.R.C.S., Eng.; L.R.C.P., Lond., Clinical Asst.
W. K. Ross, M.D., C.M., Clinical Assistant.
J. G. Wright, M.D., C.M., Clinical Assistant.

THIRD YEAR.

In the third year a short course of lectures is given on Haematology. The didactic and the clinical work are correlated by a parallel study of the pathological conditions of the blood in the laboratory (clinical microscopy). These lectures are illustrated by patients from the wards of the General Hospital, the Hotel Dieu and from the out-patient departments of these institutions.

Wednesday, 9-10. Dr. Gibson.

Clinical methods, two hours a week, are taught throughout the session. The first half of the session is devoted to a study of the normal physical signs, the second half to the abnormal, with their clinical significance.

Monday and Thursday, 10-11, (sections). Drs. Quigley, Boyce, Day.

Each student is required to perform the clinical laboratory investigations, according to printed forms obtainable from the instructor, of at least five cases, (blood, urine, stomach contents). These reports must be initialed by the instructor and passed on to the head of the department for permanent record.

Text-books:—Osler, Taylor, Anders.

Clinical methods:—O'Reilly, Hutchison and Rainy.

Instruments:—stethoscope, clinical thermometer, microscope with oil immersion, haemoglobinometer, haemocytometer.

FOURTH YEAR.

The work of the fourth year is largely clinical.

A course of lecture-clinics, two hours a week, is given in the clinical theatre of the General Hospital. These lectures are illustrated by lantern slides and by patients selected from the out-patient department.

Monday and Wednesday, 2-3. Dr. Campbell.

Clinical instruction, three hours a week, is given in the wards of the General Hospital, the Hotel Dieu, and in the clinical theatres of these institutions.

Tuesday, 11-12 (A). Dr. MacCallum, General Hospital.

(B). Dr. Quigley, Hotel Dieu.

Thursday, 10-11. Dr. Third, General Hospital.

Friday, 11-12 (A). Dr. Gibson, Hotel Dieu.

(B). Dr. MacCallum, General Hospital.

History taking:—Dr. Bell, assisted by the house-physicians of the General Hospital and Hotel Dieu.

Monday 11-12, Tuesday 10-11, Thursday, 11-12.

The clinical laboratory in the General Hospital is open from 8 a.m. to 6 p.m.

Each student must write in the history-book prepared for the purpose and according to the printed plan on the second page, the history of each case assigned him. A full laboratory report, duly initialed by the instructor, must be entered. No book will be accepted unless at least six cases are written up. These reports are criticized and valued from time to time throughout the session and their values entered in the permanent records.

History books may be obtained from the secretary of the General Hospital.

At the bedside, the student is expected to give the history of the case orally. Written and clinical tests are held every six weeks.

Text-books:—Osler, Taylor, Anders.

Clinical Medicine:—Rainy and Hutchison, Cabot, Musser, Wilson, Webster, Sahli.

Dermatology:—Sequeira, Walker, Stelwagon, Hyde.

Instruments:—In addition to those used in the third year, a sphygmomanometer.

FIFTH YEAR.

The work of the fifth year is wholly clinical. Ample provision has been made in the time-table for history-taking and laboratory work.

Each student must write in the history-book prepared for fifth year students the history of each case assigned him. A full laboratory report duly initialed by the instructor must be attached. In case of death of the patient, the post-mortem report must be included. No book will be accepted unless six cases are written up. These case reports are criticized and valued at regular intervals during the session.

Clinical tests are held every six weeks. No student is admitted to the April examinations who has failed to make 50% on his work of the session.

A complete record of the student's work throughout the third, fourth and fifth years is kept and this record is considered in determining his final standing.

Monday, 10-11. Dr. Third, General Hospital.

Tuesday, 10-11 (A). Dr. Third, General Hospital.

(B). Dr. Campbell, Hotel Dieu.

Wednesday, 10-11. Dr. Third, General Hospital.

Thursday, 3-4, (sections). Drs. Ryan, Ross, and Wright, Rockwood Hospital.

“ 4-5, Dr. MacCallum, Mowat Memorial Hospital (Tuberculosis).

Friday, 10-11, Clinical Conference. Dr. Third, General Hospital.

Groups of students are taken in rotation to the Nickle building, General Hospital, for the study of infectious diseases. Dr. Campbell.

Demonstrations in radiography are given weekly at the General Hospital, *Saturday, 9-11.* Dr. Boyce.

Sections of the class are taken from time to time to the House of Refuge and House of Providence for the study of diseases at present regarded as incurable. Dr. Third, Dr. Gibson.

Patients in the out-patient department who require to be followed up in their homes are assigned to members of the fifth year. Histories of these cases, if approved, may be included in the regular case-book. This experience is most helpful to the young practitioner.

Text-books:—Osler, Taylor.

Clinical Medicine:—Rainy and Hutchison, Cabot, Musser, Wilson, Webster, Sahli, Emerson.

Dermatology:—Sequeira, Stelwagon, Hyde.

Neurology:—Dana, Campbell Thomson.

All the modern text-books and works of reference are to be found in the library and may be consulted from 2 to 5 each week day, except Saturday.

Instruments:—In addition to those used in the previous years, an ophthalmoscope.

OBSTETRICS.

A. R. B. Williamson, M.A., M.D., M.R.C.S., Eng.; L.R.C.P., Lond., Professor.

Dr. Williamson *lectures to the final year at the Medical Laboratories on Monday and Tuesday at 1 o'clock.*

He lectures to the fourth year in the Medical Building on Thursday and Friday, at 1 o'clock.

For fourth year students the course in Obstetrics will include the anatomy of the pelvis; anatomy, anatomical relations and physiology of the organs of generation; menstruation, ovulation and conception; development of the embryo, foetus and foetal appendages; the diagnosis of pregnancy, phenomena and management of normal labor; management of the mother and infant during the puerperal period; mechanism and management of labor for the several presentations and positions; delivery by forceps; by version; hemorrhage during pregnancy and post partum.

In the fifth year the pathology of pregnancy, parturition and the puerperium is taken up. Under this heading is considered the diseases of the

membranes and placenta; the diseases and disorders of pregnancy; the effects of certain diseases on pregnancy and parturition; dystocia the result of deformed pelvis, faulty mechanism, mal-presentations and positions; ante-partum and post partum hemorrhage; diseases incident to the puerperium. The lectures are illustrated by the artificial pelvis, drawings and models. The class is admitted to the practice of the Maternity Wards of the Hospital where practical instruction is given in the management and care of such cases.

BOOKS OF REFERENCE.

Obstetrics—Galabin and Blacker, Eden, Hirst, Webster, Dorland, Garrigue, American Text-Book of Obstetrics, Peterson, Jewett, King's Manual.

PATHOLOGY AND BACTERIOLOGY.

W. T. Connell, M.D., M.R.C.S., Eng., L.R.C.P., Lond., Professor.

W. Gibson, M.D., Assistant Professor.

T. Little, M.B., Demonstrator.

The course in Pathology comprises:—

1. A series of lectures, two per week, during the session on general pathology, for students of the third year. These lectures are illustrated by plates, diagrams and morbid specimens.

2. A weekly demonstration in morbid histology for third year students. Sections of various lesions are prepared and demonstrated each week, so that a representative series of specimens of diseased tissues are thus acquired by students.

3. A class in clinical microscopy three hours each week during the session.

4. A series of lectures on bacteriology, with practical instruction, occupying four hours each week during the session. Each student will have practical instruction in culture methods, examinations of pure cultures and examination bacteriologically of secretions and excretions of the body, with strict reference to the bearing of such on practical medicine.

5. A series of lectures and demonstrations on systemic pathology for students of the fourth year, three and one-half hours per week during the session.

6. A class one day each week at which the gross and microscopic morbid specimens from autopsies and operations are demonstrated.

7. In the fifth year two classes per week dealing with the pathology of cases in the hospital wards.

Students will be taken in rotation to assist in making post-mortem examinations and in making reports of such examinations. Students must attend at least ten autopsies, which are held at the mortuaries of the General and Rockwood Hospitals.

Each student must provide himself with a set of pathological slides. These may be obtained:

1. By purchase at the college; 3rd year \$5.00, 4th year \$5.00.

2. By rental at the college; 3rd year \$2.50, 4th year \$2.50.

A student renting slides must deposit full price of same and on return of slides a refund of 50 per cent. will be made less 25 cents for each slide destroyed.

3. By purchase elsewhere of slides. These must be approved by the professor.

BOOKS OF REFERENCE.

Pathology—Delafield and Prudden, Adami and McCrea, Stengel, Hewlett, Beattie and Dickson, Pembrey and Ritchie.

Pathological Histology.—Mallory, Grunbaum.

Pathological and Bacteriological Technique—Connell, Mallory and Wright, Eyre.

Bacteriology—Jordan, Muir and Ritchie, Park, Calkins' Protozoology.

Clinical Microscopy—Simon, Stitt, Todd.

PEDIATRICS.

G. W. Mylks, M.D., C.M., Professor.

Dr. Mylks *lectures to the fourth year at the Medical Laboratories Building, Monday afternoon, at 1 o'clock.*

This course is taken in the fourth year. It includes the general care and management of infants; clinical investigation of diseases in infants; injuries and diseases of the newly born; nutrition; derangements of nutrition; diseases due to faulty nutrition; diseases of the digestive system; respiratory diseases; acute infectious diseases, etc.

BOOKS OF REFERENCE.

Holt, Tuttle, Fischer, Ruhrah, Chapin and Pisek, Still, Hutchison, Sheffield.

PHYSICS.

A. L. Clark, M.A., Ph.D., Professor.

J. K. Robertson, M.A., Assistant Professor.

V. E. Pound, M.A., Ph.D., Lecturer.

This class is given to first year students, and comprises:—

1. A course of two lectures per week throughout the year, emphasizing those parts of Physics of importance to students of Medicine.

2. Four hours per week in the laboratory. The course of experiments is planned to meet the requirements of the medical student.

Lectures—Monday 11 a.m. and Wednesday 9 a.m.

Laboratory—Section A, Tuesday and Thursday 10-12 a.m.; Section B, Monday 9-11 a.m. and Tuesday 1-3 p.m.

Professor Robertson and Dr. Pound.

PHYSIOLOGY.

A. P. Knight, M.A., M.D., F.R.S.C., Professor.

T. L. Patterson, M.A., M.Sc., Assistant Professor.

W. V. Sargent, M.B., Fellow.

In this department are offered courses which are suited for providing the preparation in the science of Physiology that is indispensable to the study and practice of medicine; courses which afford the student an opportunity for acquiring a more thorough and complete preparation for following intelligently the rapid advances in modern physiology and other medical subjects; and courses which are indispensable for those who intend to assist in this advance by devoting themselves in part or exclusively to research in medical subjects, after completing their medical course.

The required courses in Physiology are arranged to cover a period of three sessions and consist of lectures, demonstrations, written and oral quizzes, informal conferences, and laboratory work and study.

Courses of Instruction.

FIRST YEAR.

1.—*Elementary Physiology.* After the course in general animal biology has been completed, there will follow for the rest of the session a course of instruction in elementary physiology.

Wednesday at 2, Friday at 1. Second half year. Professor Knight.

2.—*Physiologic Anatomy.* This is a purely laboratory course based on the dissection of the rabbit. Emphasis is laid on the physiological rather than the anatomical side. Thus a detailed study is made of the muscles of mastication, deglutition, respiration, defecation, micturition and vomiting, as well as of the different systems of organs including the glands of internal secretion. The class is divided into two sections.

Section A, Monday 9-11; Section B, Wednesday, 10-12.

Professor Patterson and Dr. Sargent.

SECOND YEAR.

3.—*Intermediate Physiology.* The subject is discussed didactically in the following order: Physiology of the blood, circulation and respiration; the physiology of secretion, digestion, absorption, metabolism and excretion; the physiology of muscle and nerve, central nervous system and special senses.

Lectures—Monday at 11 and Friday at 10. Professor Patterson.

4.—*Experimental Physiology.* This is a purely laboratory course in the dynamics of muscle and nerve, nervous system, circulation and respiration, digestion, excretion, secretion, etc. The class is divided into two sections.

Section A, Tuesday 1-4; Section B, Thursday 9-12.

Demonstrations—Tuesday at 11.

Professor Patterson and Dr. Sargent.

THIRD YEAR.

5.—*Advanced Physiology.* As a thorough understanding of advanced physiology can be acquired only through a knowledge of physics, chemistry, gross and microscopic anatomy, supplemented by experimental courses of laboratory instruction, the third year will be devoted largely to correlating the work of the two preceding years in these five subjects, and in using it as a basis for the clinical instruction of the fourth and fifth years. Special emphasis will be laid upon the study of the nervous system.

Tuesday at 11, Wednesday at 10, Thursday at 9 and Friday at 11.

Professor Knight.

OPTIONAL COURSES.

6.—*Special Mammalian Physiology*. This is a laboratory and lecture course intended for advanced laboratory students who may wish to do special work in this line of physiology. Hours to be arranged.

Professor Patterson.

7.—*Research in Physiology*. Properly qualified students will be admitted to the laboratory for post-graduate study and special research. Hours will be arranged to suit individuals.

Professors Knight and Patterson.

8.—*General and Comparative Physiology* (at the Dominion Biological Station, at St. Andrews, N.B.). Credit is given by Queen's University for work done at this station.

Professor Knight.

LABORATORY OF EXPERIMENTAL PHYSIOLOGY.

This laboratory is fully equipped with the latest and most improved apparatus. Each student is trained to become familiar with the phenomena of life by objective and personal study. An abundant supply of material is provided for experiment and demonstration.

The laboratory is also well adapted for post-graduate study, and graduates and advanced students competent to undertake such work, who desire to pursue special physiological investigation, will be given the opportunity under suitable regulations.

In course (4) a laboratory deposit of \$3.00 will be required of each student, returnable at the end of the session minus the amount of breakage plus \$1.00 for wear and tear of apparatus. Special laboratory deposits will also be required in courses 6 and 7, the amount depending on the length of the course and the nature of the work.

TEXT-BOOKS.

Martin: *The Human Body* (course 1).

Patterson: *Physiologic Anatomy of the Rabbit* (course 2).

Halliburton: *Handbook of Physiology* (course 3).

Patterson: *Typewritten Syllabus for Experimental Physiology* (course 4).

Bainbridge and Menzies, *Essentials of Physiology* (course 5).

BOOKS OF REFERENCE.

Howell: *Text-Book of Physiology*. Stewart: *Manual of Physiology*. Brubaker: *Text-Book of Physiology*. Tigerstedt: *Text-Book of Physiology*. Starling: *Principles of Human Physiology*. Luciani: *Human*

Physiology (Vols. I-V). Hemmeter: Manual of Practical Physiology. Stirling: Practical Physiology. Sherrington: The Integrative Action of the Nervous System. Pawlow: Work of the Digestive Glands. Cannon: Mechanical Factors of Digestion. Biedl: The Internal Secretory Organs; their Physiology and Pathology (English translation).

PSYCHIATRY.

E. H. Young, M.B., Asst. Supt. Rockwood Hospital, Professor.

Dr. Young lectures to the fifth year at Rockwood Hospital, on Thursday afternoon from 2 to 3 o'clock.

This course of lectures is delivered at Rockwood Hospital for Mental Diseases. It includes a consideration of insanity in its various forms, special attention being devoted to diagnosis and treatment. Students are required to write the histories of various mental cases.

BOOKS OF REFERENCE.

Church and Peterson, White, Kraepelin, Defendorf.

SANITARY SCIENCE AND PREVENTIVE MEDICINE.

W. T. Connell, M.D., M.R.C.S., Eng., L.R.C.P., Lond., Professor.

The lectures are taken during the fifth year, and include the subjects of food, water, air and ventilation, sewage disposal, dwellings, hospitals, climate and soil in their relation to public health. The nature, methods of spread and means of prevention of the infective diseases will also be considered, including isolation, disinfection and quarantine. Vital statistics and the laws governing control of public health will also be discussed.

BOOKS OF REFERENCE.

Notter and Firth, Bergey, Harrington, Glaister.

SURGERY.

D. E. Mundell, B.A., M.D., Professor.

W. G. Anglin, M.D., M.R.C.S., Eng., Professor of Clinical Surgery.

E. Ryan, B.A., M.D., Associate Professor of Clinical Surgery.

C. A. Morrison, M.D., Assistant Professor.

F. Etherington, M.D., Assistant Professor.

R. Hanley, M.D., Clinical Assistant.

R. J. Gardiner, M.D., Clinical Assistant.

In the third year one lecture is given covering inflammation and its effects, use of heat, light, electricity, and radium, suppurative processes, asepsis, wounds and treatment. One clinic weekly is held in minor surgery, bandaging, etc.

For the fourth year, three lectures are delivered comprising diseases of arteries, veins, nerves, muscles and tendons; fractures and dislocations, diseases of bones and joints, deformities of limbs and spine. One clinic is held in the General Hospital and one in the Hotel Dieu weekly.

The fifth year is devoted chiefly to clinical surgery, there being but one lecture weekly on surgery of the abdomen and thorax and of the head and neck.

Four clinics are held weekly in the General Hospital, one in the Hotel Dieu and one at Rockwood Hospital.

Ample provision is made for operative surgery on the cadaver by two weekly demonstrations in which the student himself performs the operation in all its steps under supervision.

At the General Hospital a special course is given in the use of the cystoscope and in catheterization of the ureter.

BOOKS OF REFERENCE.

Rose & Carless; Whitman, Orthopaedic Surgery; Foote, Minor Surgery; Kelly-Noble, Surgery; Martin, Surgical Diagnosis; Kocher; Treves, System of Surgery; Pye, Surgical Handicraft; Morrow, Technic; Thomson & Miles; Russell; Howard; Ashurst; MacLennan, Surgical Materials.

THERAPEUTICS.

J. W. Campbell, M.D., C.M., Professor.

S. M. Asselstine, M.D., C.M., Lecturer.

FOURTH YEAR.

Dr. Campbell lectures to the fourth year at 2 o'clock on Tuesday afternoon at the General Hospital. The lectures deal with the general principles of therapeutics, the various methods of treatment, including organotherapy, thermo-therapy, balneology massage, nutrition, dietetics, etc.

Dr. Asselstine lectures to the fourth year at the General Hospital at 3 p.m. on Thursday. The lectures deal with general therapeutics, referring particularly to vaccine therapy, serum therapy, medical climatology, electro therapy, X-ray therapy, toxicology, etc.

FIFTH YEAR.

Dr. Campbell lectures to the final year Friday, at 2 o'clock, at the General Hospital, giving practical bedside treatment following the clinical teaching of the week.

The lectures are used to introduce in a systematic way the principles of and indications for treatment.

The clinic at Hotel Dieu Tuesday morning at 10 o'clock is followed by practical bedside treatment of the cases presented.

Dr. Asselstine also lectures to the fifth year on Tuesday afternoon at 4 o'clock. The lectures deal particularly with infectious diseases and diseases of the alimentary tract, using the wards of the General Hospital, the Mowat Hospital, and the Rockwood Hospital, as circumstances demand.

During the course special attention is given to newer methods of treatment, prescription writing and demonstrations at the bedside.

BOOKS OF REFERENCE.

Forcheimer, Hare, Yeo, Musser and Kelley, Latham and English.
Index of Treatment by Hutcheson and Collier.

MUSEUM.

The Pathological Museum contains numerous valuable specimens collected both from hospital and private practice. A catalogue has been compiled and is accessible for use in study of the specimens.

Contributions of morbid specimens will be gladly received from practitioners. Specimens of congenital malformations and of monstrosities will be especially welcome.

LIBRARY.

The University Library is open to Medical students as well as to the students of the other Faculties.

The Medical Library is maintained by the Faculty in the Medical Building and is open to students. The Librarian is a member of the Association of Medical Librarians, which has for its object the fostering of medical libraries and the maintenance of exchange of medical literature. The reading room is provided with the leading medical and surgical publications of the day, and is open to students daily throughout the term (Saturdays excepted) from 2 to 5 p.m.

Roll of Honor.

The following members of the staff, graduates and students are, or have been on active service. The list is incomplete. Information is desired as to others. Please send corrections and additions to the Secretary, Medical Faculty.

Lt.-Col. H. R. Duff,

Second in Command, Queen's Hospital, Cairo. Died Feb. 8th, 1916.

Colonel A. E. Ross, C.M.G., Professor of Materia Medica.

A. D. M. S., 1st Division Canadian Expeditonary Force, France.

Lt.-Col. W. T. Connell, Professor of Pathology and Bacteriology.

On active service with Queen's Hospital from May to December, 1915. Returned at request of Faculty to resume college duties.

NO. 7 GENERAL HOSPITAL (QUEEN'S),

Left Kingston May 5, 1915.

Alphabetical List of Graduates.

Graduates or others who notice any error or omission in the following list, either as to the names of the graduates, their titles or their places of residence, will confer a favour by calling attention to the same.

DR. WILLIAMSON, Secretary.

- Abbott, Rodney H., M.D., C.M. 1879, Amherstburg.
Abbott, G. A., M.D., C.M., 1895, Watertown, N. D.
Adams, Geo. T. C., M.D., C.M. 1892, Melbourne, Australia.
Adams, Joseph, M.D., C.M. 1892, Plevna.
Adamson, Herbert A., M.D., C.M. 1892, Richmond City, Utah.
Allen, A. T., M.D., C.M. 1887, Deadwood, S.D.
Allen, Jas. Ross, M.D., C.M. 1894, Olean, N.Y.
Allison, D. M., M.D., C.M. 1900.
Alway, Enoch, M.D., C.M. 1869, Bartonville.
Ames, A. J., M.D., C.M. 1895, West Henrietta, Munroe Co., N.Y.
Amos, W. W., M.D., C.M. 1902, Prince Albert, Sask.
Amys, C. M., M.D., C.M. 1899, Peterboro.
Anderson, Wm. J., M.D., C.M. 1894, Jasper.
Anderson, N. W., M.D., C.M. 1898, Lumsden, Sask.
Anderson, W. E., Ph.G., M.D., C.M. 1910, Millet, Alta.
Anderson, F.C., B.A. 1900, M.B. 1912, M.D., C.M. 1913, Ottawa.
Anglin, Jas. V., B.A. 1883, M.D., C.M. 1887, St. John, N.B.
Anglin, R. S., M.D., C.M. 1882, Omaha, Neb.
Anglin, W. G., M.D., C.M. 1883, M.R.C.S., Eng., Prof., Queen's University, Kingston.
Armstrong, Albert, M.D., C.M. 1898, Warkworth.
Arthur, S. W., B.A. 1900, M.D., C.M. 1903, Redvers, Sask.
Ash, A. F., M.D., C.M. 1901, Clifton Park, Weehawken, N. J.
Asselstine, S. M., M.B. 1913, M.D., C.M. 1914, Lecturer, Queen's University, Kingston.
Asselstine, B., M.D., C.M. 1907, Fernie, B.C.
Austin, C. J., M.D., C.M. 1908, Gouverneur, N. Y.
Austin, G. H., M.D., C.M. 1893, Wyatt, Ind.
Aykroyd, W. H., M.D., C.M. 1903, Balgonie, Sask.
Aylesworth, F. A., M.D., C.M. 1903, Roseneath.

Bailey, R. W., M.D., C.M. 1904, Philadelphia, Pa.
Baker, J. O., M.D., C.M. 1908, Dalhousie Mills.
Baker, A. E., M.D., C.M. 1906, New Richmond, N. Y.
Baker, T. C., M.D., C.M. 1888, Chatham.
Baker, D. M., M.B. 1914, Owen Sound.
Balfe, T. H., M.D., C.M. 1892, Hamilton.
Ballantyne, W. H., M.D., C.M. 1906, Queen's Hospital, Cairo, Egypt.
Barber, A. E., M.D., C.M. 1892, South Bend, Ind.
Barber, V., M.C., C.M. 1897, 239 Arlington Ave., Brooklyn, N.Y.
Barker, Ralph R., M.D., C.M. 1910, Portland.
Barnes, J. A., M.D., C.M. 1906, Kingston, Jamaica.
Bateman, W. R., M.D., C.M. 1911, Bolton.
Beattie, Wm., M.D., C.M. 1866, Wiarton.
Beatty, Elizabeth R., M.D., C.M. 1884.

- Beeman, T. A., M.D., C.M. 1887, Bancroft.
Beeman, T. W., M.D., C.M. 1878, Perth.
Beete, Jos. T., M.D., C.M., 1910, Henrietta, B.G.
Begg, J. W., M.D., C.M. 1887, Cartago, Costa Rica.
Beggs, W., M.D., C.M. 1908, F.R.C.S., Edin. Edmonton, Alta.
Belch, J. A., M.D., C.M. 1889, Syracuse, N. Y.
Bell, Alexander, M.D., C.M. 1865, Lakefield.
Bell, A. M., M.D., C.M. 1906, 266 Danforth Ave., Toronto.
Bell, John H., M.D., C.M. 1890, Hamilton.
Bell, Fred McKelvey, M.D., C.M. 1903, Ottawa.
Bell, D. E., M.B. 1914, M.D., C.M. 1915, General Hospital, Kingston.
Bennett, H. J., M.D., C. M. 1905, White River.
Bennett, A. E. H., M.D., C.M. 1907, Kamloops, B. C.
Bernard, Gerald, M.D., C.M. 1871, Newcastle-on-Tyne, Eng.
Beroard, L. C. E., M.D., C.M. 1910, L.R.C.P. & S., Edin., L.F.P. & S., Glasgow, 64 Arthur St., Ottawa.
Berry, G. H., M.D., C.M. 1895, Westport.
Berry, W. E., B.A., M.B., 1914, Robson, B.C.
Bertram, T. A., M.D., C.M. 1885, Dundas.
Bermingham, Mary E. (Macarow), M.D., C.M. 1892, Toronto.
Bermingham, Frank H., M.D., C.M. 1892, 13 Montague St., Brooklyn, N. Y.
Bice, Mark, M.D., C.M., 1869, Mount Bridges.
Biggar, Geo. W., M.D., C.M. 1862.
Bingham, Jas., M.D., C.M. 1868, Peterboro.
Bird, Nelson J., M.D., C.M. 1860, San Francisco, Cal.
Bissonnette, Julien D., B.A. 1880, M.D., C.M. 1892, Stirling.
Bissell, E. S., M.D., C.M. 1910, Mallorytown.
Blakslee, V., M.B. 1913.
Black, B. F., M.D., C.M. 1893, Holton, Mich.
Black, Donald, M.B. 1914, Lang, Sask.
Blaylock, Ella, M.D., C.M., 1887.
Bleecker, G. H., M.D., C.M. 1902, Sault Ste. Marie.
Boak, Eric W., B.A., M.D., C.M. 1913, Vancouver, B.C.
Bogart, I. G., M.D., C.M. 1901, Kingston.
Bolton, Elmer, M.D., C.M. 1906, 615 Hastings St. W., Vancouver, B.C.
Bond, H. E., M.D., C.M. 1908, Kingston, Jamaica.
Boucher, Jos. A., M.D., C.M. 1894, Watertown, Mass.
Bourns, T. C., M.D., C.M. 1892, Whitney.
Bourns, W. H., M.D., C.M. 1892, Frankville.
Bowen, Geo. H., M.D., C.M., 1877, Minden.
Bowen, H. M., M.D., C.M. 1907, Toronto.
Bow, M. R., B.A., 1908, M.D., C.M. 1911, Regina, Sask.
Bowie, H. A., M.D., C.M. 1901, Essex.
Box, J. H., M.B. 1915, Calabogie, Ont.
Boyce, G. T. G., M.B. 1915, Georgetown, B.G.
Boyce, H. A., M.D., C.M. 1907, Supt. K. G. Hospital, Kingston.
Boyd, T. W., M.B. 1914, Port Arthur.
Boyle, Jos. A., B.A. 1891, M.D., C.M. 1896, Casselman.
Bracken, E. J. M.D., C.M. 1909, Saskatoon, Sask.
Bracken, F. C., M.D., C.M. 1911, 201 College St., Toronto.
Bradley, Ross M., B.A., M.D., C.M. 1908, Wuhu, China.
Brady, James, M.D., C.M. 1891, Rochester, N.Y.
Branigan, P. K., M.D., C.M. 1862.
Brander, J. F., M.D., C.M. 1906, 146 Whyte Ave., Edmonton, Alta.

Branscombe, M. E., B.A. 1903, M.D., C.M. 1904, Picton.
Brennan, E. J., M.B. 1915, North Bay, Ont.
Bridge, B. B., M.D., C.M. 1900, Albert City, Iowa.
Bromley, J. E., M.D., C.M. 1904, Herbert, Sask.
Brown, Robert, M. D., C.M. 1865.
Brown, W. C., M.D., C.M. 1904, Toronto.
Brown, Jonathan, M.D., C.M. 1893, New Lothrop, Mich.
Brown, James, M.D., C.M. 1912, Davidson, Sask.
Brown, W. J. B., M.B. 1915, Bonavista, N'f'l'd.
Bruce, R. Frederick, M.D., C.M. 1886, Mount Morris, Mich.
Brunet, J. E., M.D., C.M. 1909, Ottawa.
Buchanan, H. M., M.D., C.M. 1889, St. Lawrence, N. Y.
Buck, Lloyd L., M.D., C.M. 1909, Espanola.
Bullis, Wm. H., M.D., C.M. 1884, M.R.C.S., Eng., Rochester, N. Y.
Burden, Fred W., M.B. 1913, M.D., C.M. 1914, St. John's, Nfld.
Burnham, S. E., M.B. 1913, Woodrow, Sask.
Burger, C. H., M.D., C.M. 1891, Kingston, Jamaica.
Burke, M. L., M.D., C.M. 1907, Port Antonia, Jamaica.
Brunett, N. L., M.B. 1915, Springfield, Mass.
Burrows, A. E., M.D., C.M. 1904, Parry Sound.
Burrows, John G., M.D., C.M., 1891, Marlbank.
Burton, S., M.D., C.M. 1900, Lacona, N.Y.
Burton, Geo. W., M.B. 1912, M.D., C.M. 1913, Providence, R.I.
Burwell, G. B., B.A. 1913, M.B. 1915, Renfrew, Ont.
Byers, J. C., M.D., C.M. 1908, Spencerville.
Byrne, E. P., M.D., C.M. 1909.

Cairns, R. M., M.B. 1914, Ottawa.
Callfas, W. F., M.D., C.M. 1898, St. Louis, Mo.
Caluek, S. H., M.B. 1915, Kingston, Jamaica.
Camelon, T. P., M.D., C.M. 1890, Detroit, Mich.
Cameron, D. R., M.A. 1905, M.D., C.M. 1909, Cochrane.
Cameron, A. D., M.D., C.M. 1882, Spalding, Neb.
Cameron, W. A., B.A., 1887, M.D., C.M. 1890.
Campbell, Albert L., M.D., C.M. 1889, Jamestown, N.Y.
Campbell, Geo., M.D., C.M. 1859.
Campbell, Jas. W., B.A., M.D., C.M. 1891, Prof. Queen's University, Kingston.

Henderson, Donald, 1886, Emerson, Man.
Matheson, Murdoch, 1886, Waverley, N. S. W.
Preston, Robert H., 1890, Newboro.
Reeve, Richard A., 1866, Toronto.
Walker, A. Holford, 1891, Toronto.

LICENTIATES.

Adams, G. T. C., 1892, Melbourne, Victoria.
Alway, Enoch, 1860, Bartonville.
Balfe, Thomas H., 1892, Hamilton.
Bice, Mark, 1869, Mount Bridges.
Bingham, James, 1868, Peterboro.
Bruce, R. Frederick, 1888, Mount Morris, Mich.
Campbell, Albert L., 1888, Mount Amherst, Ohio.
Chaffey, Ellswood, 1870.
Chamberlain, Theodore F., 1871, Toronto.
Clapham, Edward, 1868.
Close, James, 1873.
Coleman, William F., 1870, Chicago, Ill.
Davis, L. T., 1883, Nanaimo, B. C.
Dowsley, D. H., 1875, Ottawa.
Dunlop, James D., 1886, Alpena, Mich.
Erichsen, Hugo, 1883, Detroit, Mich.
File, Albert J., 1869, Ameliasburg.
Fralick, W. G., 1887, Chicago, Ill.
Graham, William J., 1873.
Green, J. B., 1891.
Gunsolus, Kenneth, 1874, Detroit, Mich.
Hall, William A., 1883, Walkerton.
Harvey, Leander, 1867.
Harvey, W. D., 1869, Hillsboro, Dak.
Hay, William, 1887.
Houston, William R., 1871.
Hutcheon, John, 1869, St. Thomas.
Jones, DeWitt Clinton, 1891.
Keith, Sylvanus, 1886, New Glasgow, N. S.
Kidd, Edward, 1881, Trenton.
Knight, John H., 1880, Wallaceburg.
Lavers, F. C., 1891, New Ross, N. S.
Maclean, Arch., 1880.
Meadows, R. W., 1866.

Mitchell, Chas. F., 1890, Cleveland, Ohio.
Mitchell, H. F., 1889, South Bend, Ind.
Murphy, H. J., 1867.
McAmmond, J. F., 1889.
McLennan, Alex. S., 1873, Chicago, Ill.
Newell, James, 1869, Watford.
Patterson, R. L., 1885, Buffalo, N. Y.
Patterson, James B., 1869, Port Elgin.
Potts, James McCumming, 1888.
Reid, John D., 1890, Prescott.
Scott, William, H. S., 1890.
Smith, G. A. W., 1892, Sydney, N.S.W.
Spear, Hugh, 1868.
Stark, Alex., 1880.
Stewart, Alex. J., 1869, Orillia.
Symington, Thomas J., 1881, Ackley, Iowa.
Tait, Stuart, 1890.
Taplin, A. E.
Thobodo, Robert, 1868,
Wilson, C. J. C., 1869, Montreal, Que.
Young, David, 1871.
Wood, William F., 1891.

LIST OF DECEASED GRADUATES.
